

1、安装updatecomposer\_2023\_08\_21\_v1.0\_debug\_1.apk

```
adb install updatecomposer_2023_08_21_v1.0_debug_1.apk
```

2、将full\_update.zip 推入车机

```
adb root
```

```
adb push full_update.zip /data
```

3、关闭selinux

```
setenforce 0
```

4、log查看

```
su
```

```
echo 0 > /proc/sys/kernel/printk
```

```
setprop persist.log.tag.update_engine V
```

```
setprop persist.log.tag S
```

```
setprop persist.iauto.log.switch 31
```

```
logcat -G 256m && logcat -g
```

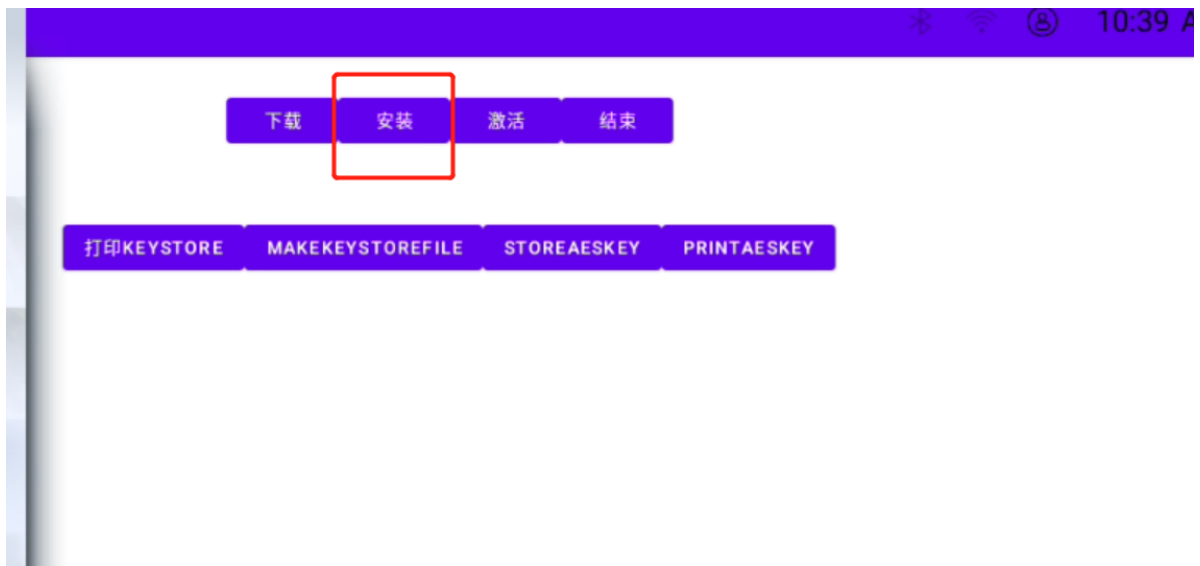

```
logcat -s update_engine &
```

4、点击测试app安装按钮

点击updateComposer

点击安装

然后看4中的log输出
